

# CAGE SOLUTIONS

The comprehensive cage management solution

## Star|CAGE

Increase productivity and performance, quickly access key information, improve the quality of financial information, and realise the benefits of Star|CAGE. Star|CAGE is ATRONIC's complete vault, front cage and credit management tool. Our proven and flexible module means your payment system is ready to quickly adapt to evolving technology and new payment methods. Most importantly, it provides comprehensive risk management.

Star|CAGE supports internal casino transactions, such as reconciling revenue with slot machines and tables, as well as client activity, like smart card and cash transactions. Operators have the ability to consolidate financial revenues between the cage, credits, slots and tables.

## OPERATOR BENEFITS

- ✦ Reduces operating expenses by simplifying and centralising your payment processing operations
- ✦ Protects your business and saves money by minimising risk and fraud
- ✦ Anticipates and mitigates potential risks by helping you making more informed decisions
- ✦ Reduces complexity by complying with regulatory requirements
- ✦ Creates an efficient and consolidated control system by integrating with slots and table games operations
- ✦ Increases customer satisfaction by performing guest and job transactions quickly and easily using touch-screen technology

# CAGE SOLUTIONS
